MEET THE

JUNIOR LEADERSHIP TEAM

HI! MY NAME IS...

Jamie

Jamie's role: Head Boy

Personality: I am very work driven but also a bit goofy & smart. I always try to be resilient and positive where possible.

Jamie's favourite subjects include: Science, English Literature and Computer Science

What Jamie loves about St Michael's: I love how accepting the staff and students are, the positivity the school brings, my subject teachers, the involvement students have to make it a better place for us to go to and learn.

What Jamie was worried about when starting St Michael's: What scared me at first was the size of the school compared to my primary school and definitely the older students because Year 6's are so used to being the oldest kids in the school and the transition to the youngest presented a challenge.

HI! MY NAME IS...

Rosie

Rosie's Role: Head Girl

Rosie's personality: I am a hard-working, a little bit weird, very loud, motivated, considerate, responsible individual.

Rosie's favourite subjects include: Science and English Literature

What Rosie loves about St Michael's: I love how easy it is to settle into St Michael's as all the staff and students are very accepting. As a member of Student Voice, I also love how the school is actively involved in the local community and offers endless opportunities to fundraise, mentor and make new friends.

What Rosie was worried about when starting St Michael's: One of the main things I was worried about when I started high school was not making friends, as only 4 others from my primary school came to St Michael's. I was worried about being the youngest at the school because, as Year 6, I was so used to being the oldest.

HI! MY NAME IS...

Holly

Holly's role: Head Girl

Holly's personality: I am probably the most chilled person you will ever meet throughout your journey at St Michael's - but don't get me wrong, I can be sassy when I need to be. I am motivated, confident and strong minded but also very compassionate and understanding. Need a quick chat, I'm the one to call!

Holly's favourite subjects include: History, English Literature and French

What Holly loves about St Michael's: I love how the teachers are always up to have a good laugh and are always willing help and push me further with my learning. The teachers at St Michael's are incredibly compassionate and act like a second family from home to home.

What Holly was worried about when starting St Michael's: Firstly, the building! It's massive, but don't worry you eventually get the hang on it and manage to find your way around. Secondly, you won't get your head dunked into the toilet! I can proudly say that during my nearly 5 years at high school, this has never happened to me and for sure won't happen to you!

HI! MY NAME IS...

Callum

Callum's role: Deputy Head Boy

Callum's personality: I am considered to be quite smart and hardworking. I am also very positive, happy and strong minded.

Callum's favourite subjects include: Maths, History, Geography

What Callum loves about St Michael's: I love how easy the teachers are to approach and how every situation is dealt with. Everything is done to the best standards to make sure we as students get the best we can out of our time at St Michael's. Everyone does the best THEY can to make sure students do THEIR best.

What Callum was worried about when starting St Michael's: What I found scary at first was the prospect of older kids and the size of the school. But that's not something to worry about - you'll soon find out we aren't that scary and the school isn't that big. You'll soon learn your way around with help from older students and slowly the school becomes much smaller as you get to know the place.

HI! MY NAME IS...

Jasmine

Jasmine's role: Deputy Head Girl

Jasmine's personality: I am considered to be mature but I do have a sense of humour. I am a fun person to be around. I am also caring and will support you if you need encouragement.

Jasmine's Favourite Subjects: English Literature and RE

What Jasmine loves about St Michael's: I love the community and the atmosphere at St Michael's. Everyone knows when to be hardworking and strive to achieve. As well as having fun and enjoying themselves throughout the day, after 3pm we have a variety of after-school activities, including sport, dance, art and music.

What Jasmine was worried about when starting St Michael's: I was worried that I wouldn't be confident enough to make new friends. However, I soon learnt that during my lessons I was given the opportunity to have class discussions and work in groups where I was given the chance to talk to new people and make friends easily.
